## EDUCATION

**ITS Engineering College**

*B.Tech in Computer Science*

Greater Noida, Uttar Pradesh

2021 – 2025

## EXPERIENCE

**Software Engineer**

Oct 2025 – Present

*Garantie*

*Gurgaon, India*

- Developed and enhanced business modules within an existing enterprise admin portal built using Next.js and Laravel, delivering new features aligned with evolving business requirements.
- Designed and implemented a Promotion Management module enabling State Heads to create, schedule, and manage promotional campaigns for specific mobile models, improving campaign execution and operational efficiency.
- Automated bulk plan issuance by implementing CSV validation, client-specific mapping, and background processing using Laravel.

**Software Engineer Intern**

Jun 2025 – Oct 2025

*Garantie*

*Gurgaon, India*

- Contributed to internal admin portal modules by implementing business requirements, fixing bugs, and enhancing existing features.
- Implemented UI components, integrated REST APIs, and resolved frontend and backend issues to improve application functionality.
- Assisted in developing and maintaining web applications using Next.js and Laravel under the guidance of senior engineers.

## PROJECTS

**CodePrism.AI** | *Next.js, Laravel* | Github

- Developed an AI-powered code review application using the Gemini API that analyzes source code and generates structured Markdown-based review suggestions.
- Focused on improving developer productivity through automated code analysis and clean report generation.
- Designed reusable UI components in Next.js to provide an intuitive interface for code submission and AI-generated feedback.

**Personal Portfolio Website** | *Next.js, LeetCode API, Spotify API* | Github

- Developed a responsive portfolio using Next.js showcasing projects, technical skills, and professional experience.
- Integrated the LeetCode API to display real-time coding statistics and solved problem counts.
- Integrated the Spotify API to display my favorite tracks.
- Implemented smooth page transitions and interactive UI animations using Framer Motion to enhance user experience and engagement.

## TECHNICAL SKILLS

**Languages:** Java, JavaScript, PHP, SQL

**Frontend:** Next.js, React.js, Flutter, Tailwind CSS

**Backend:** Laravel, REST APIs, Authentication, MVC

**Developer Tools:** Git, GitHub, Postman, VS Code

**Core Concepts:** OOP, DSA, Debugging, API Integration, Agile Development

## ACHIEVEMENTS

- Solved **376+** Data Structures and Algorithms problems on **LeetCode**.
- Secured **2nd Prize** in a college-level coding competition.
- Earned the **DSA Using Java Certification** from **RPCL**.
